WORLD ARCHERY CONSTITUTION AND RULES

Book 4, Chapter 22, Article 22.3.8.1

A question was raised by USA Archery as to whether the tab shown below is legal for use in the Barebow Division.

The Constitution and Rules Committee finds the question presented to be within the terms of reference of the Technical Committee after consultation with the Field and 3D Archery Committee. The Constitution and Rules Committee has determined that the following Interpretation of the Technical Committee is not contrary to the existing rules or Congress decisions.

Response from the Technical Committee:

It is the majority decision of the Technical Committee that the tab shown below is legal for use in the Barebow Division of World Archery. The tab has lines of uniform shape, color and spacing produced by the manufacturer of the product. Although there are two lines of differing length, both are uniform in their length and in all other aspects. Should tabs be produced with more than two differing line lengths for the Barebow Division, it would be necessary for additional review by the World Archery Technical Committee and Field and 3D Archery Committee.
